

International Journal of Sustainability in Energy and Environment

CONTENTS

Volume 1, Number 2, 2024

Mathematical Modeling of Turbine for Optimization of Tidal Energy System	1
<i>O. S. Oladokun</i>	
Enhancing Energy Efficiency and Conservation through AI-based Approaches for Climate Change Mitigation.....	8
<i>Bheema Shanker Neyigapula</i>	
Designing a System Dynamics Model to Analyze the Effect of Photovoltaic Supporting Policies in Indonesia	19
<i>Romadhani Ardi*, Valentinus Alvin, and Yohanes E. Purwanto</i>	
Utilizing Satellite Data and GIS Technologies for Air Pollution Analysis in Basra Province, Iraq.....	26
<i>Hussein T. Khreebsh and Nayyef M. Azeez*</i>	
Innovative Waste Management Solutions: A Global Perspective Challenges and Opportunities and the Bangladesh Context.....	32
<i>Rashed Ahmed</i>	
Hydrological Modelling and Its Implication in Sustainable Water Resource Management in Gumti River Basin in Bangladesh.....	40
<i>Maiesha Nujhat, Md. Rayhan, and Md. Khairul Amin*</i>
